Make necessary edits and save by clicking on 'Update'.

The screenshot shows the 'Edit Event' interface for an event titled 'Learning about Lincoln'. The main content area contains a paragraph of text: 'Abraham Lincoln was born in a Kentucky log cabin and ended up living in the White Hosue as our 16th president! Children ages 3 and up are invited to visit the library for a special interactive program presented by Lisanne Jensen. Activities will include songs about "Honest Abe" with finger play and movement, stories, a Presidential craft, and Lincoln logs to play with.' Below this is another identical paragraph. The right sidebar includes a 'Publish' section with a red arrow pointing to the 'Update' button, and an 'Event Categories' section with checkboxes for 'Adult', 'Kids', 'Teen', and 'Friends'. A featured image of Abraham Lincoln is shown at the bottom right, with a red arrow pointing to the 'Remove featured image' link. The text editor at the top has a red arrow pointing to the 'Visual or HTML editor' toggle.
