

Dashboard >Gallery >Add Gallery/Images

Locate and select gallery from drop-down to which you want to upload images. Select files and upload. You can then manage in Manage Galleries (Dashboard >Gallery >Manage Galleries)

The screenshot shows the WordPress dashboard for 'Kinderhook Memorial Library'. The top navigation bar includes 'New', 'Gallery', and 'Events'. The sidebar menu on the left lists various dashboard options, with 'Add Gallery / Images' circled in red. The main content area is titled 'Add Gallery / Images' and features a 'Please configure your Google Analytics settings!' message. Below this, there is a 'Upload Images' section with a 'Gallery' dropdown menu (labeled 'Create a new gallery') and 'Add Files' and 'Start Upload' buttons. Two red arrows point to the dropdown and the 'Add Files' button, with red text annotations: 'select gallery to add images to' and 'upload images'. The main content area also displays a table with columns for 'Filename', 'Size', and 'Status', and a message: 'Drag image and ZIP files here or click Add Files'. At the bottom, there is an 'Import Folder' button.
